**FREE<sup>+</sup>  
EMV & NFC  
Reader**

Qualifying merchants can receive a free customer-facing PIN pad that supports PIN debit, EBT, EMV chip cards and NFC payments including Apple Pay™ and Android Pay™.

**Lighthouse™  
Reporting Platform**

The Lighthouse is a cloud-based management and reporting tool that communicates information between your POS system and our online merchant portal. It eliminates the need for a back-office PC by allowing you to access the information on your POS system from any computer with an Internet connection. Among other features, the Lighthouse enables you to run various real-time reports and even make changes to your menu remotely. The Lighthouse puts you in total control of your business, without being tied to your business.

**Wireless Connectivity**

Proprietary HTNET technology creates an encrypted wireless network at your location to deliver superior reliability and security compared to traditional WiFi.

**Hybrid Cloud**

Hybrid cloud technology provides the benefits of the cloud such as real-time reporting and redundant back-up while maintaining the advantages of a local system including faster speed and the ability to operate if internet goes down.
