**REVOLUTIONIZE YOUR BUSINESS
WITH**
HARBORTOUCH ELITE™ POS

HARBORTOUCH®

The Harbortouch POS Elite system delivers a high quality
POS system that is unmatched in both reliability and functionality

FREE*

TAKE ADVANTAGE OF
STREAMLINED OPERATIONS

Manage multiple operations through your Harbortouch POS system: accept cash, checks, credit and debit, place orders, access reports, track inventory, and manage employees with the built-in time clock.

GET A TOP LEVEL VIEW OF YOUR
BUSINESS WITH ROBUST REPORTING

A wide range of comprehensive reports allow you to monitor financials, track inventory, view sales history and identify sales trends.

UTILIZE COUNTLESS TIME
AND MONEY SAVING FEATURES

Increase operational efficiency, minimize ordering errors and reduce shrinkage. More accurate employee time tracking reduces payroll while Harbortouch's reporting capabilities help you decrease accounting and book-keeping expenses.

BENEFIT FROM ADVANCED SOFTWARE
WITH TOP-OF-THE-LINE HARDWARE

State-of-the-art POS software provides all the features and functionality needed to support your business while high-end hardware provides the reliability you need.

PLUS:

All-in-one design and cast aluminum body for maximum durability and sleek appearance
Powerful processor delivers blazingly fast speed and flawless performance
Massive storage to support even the largest inventories as well as extensive reporting data

The lowest cost of ownership for any POS system on the market!
No up-front costs | Only $69 per month | Lifetime equipment warranty**
PLUS 30 day trial period!

A Wide Range of Useful Features

Order Entry/Ticketing

Manage your orders more accurately and efficiently whether you need to transfer tickets to other users, change tables, split checks, change the price or quantity of an item, repeat previously ordered items, manage gratuity and taxes or various other tasks.

Menu Setup

Add and edit menu items in real-time with a simple and intuitive interface. The menu settings can be fully customized and feature unlimited menu items, categories, choice sets and modifiers.

Customer Database

Quickly view customers' order history and personal/contact information. You can also identify best customers which is ideal for loyalty programs or other incentives.

Bar Tabs

Allow your bar patrons to open a tab, encouraging increased spending and more revenue for your business.

Fresh Sheet

Check inventory count in real-time. View a countdown of item portions remaining on-hand and receive a notification when an item is running low.

Flexible Pricing

Dynamically create manual comps, coupons and automatic discounts within seconds. Various options allow you to easily create happy hour or late night specials by specifying whether a discount is for a particular time or day and whether the discount is a set amount or a percentage.

Employee Management

Access a complete employee database, showing specific details on each staff member. Track hours worked, edit timesheets, calculate overtime, evaluate sales performance and manage security levels.

Table Tracking

Manage the tables in your restaurant and see which tables are occupied, which are vacant and how many people are at each table.
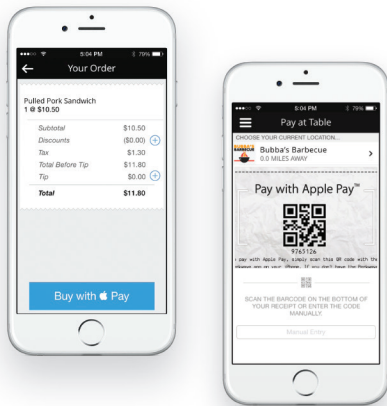

Internal Messaging

Communicate directly with your staff by adding a message of the day to the login screen (i.e., promote sales of a particular item, wish a happy birthday, etc.).

Perkwave™ Pay-at-the-Table App

Powered by Apple Pay™

Harbortouch has developed a mobile application for the Apple® iPhone® called Perkwave which enables your customers to pay their bill right from their phone using Apple Pay. The app is integrated directly into your POS system so the entire transaction will be as seamless as any other payment type. Perkwave also enables you to offer a mobile loyalty program to your customers right through the app.

Increase sales – Accommodate the tens of millions of iPhone customers who will seek out businesses that accept Apple Pay.

Enhance Customer Experience – Your customer's credit card never leaves their possession and your customers can pay at their convenience. No more waiting to sign the receipt.

Improve Security – Apple Pay uses a "tokenization" process to mask any sensitive payment information, resulting in an extremely secure transaction.

Increase Table Turns – Staff can spend more time serving customers instead of closing out checks.

Improve Loyalty - Offer a mobile loyalty program to your customers that will automatically be tracked and redeemed through the app.

Harbortouch Lighthouse

Free Online Pos Management System

The Lighthouse is a cloud-based management and reporting tool that communicates information between your POS system and Harbortouch Online, our online merchant portal. Lighthouse eliminates the need for a back-office PC by allowing you to access the information on your POS system from any computer with an Internet connection. Among other features, Lighthouse enables you to run various real-time reports and even make changes to your menu remotely. Lighthouse puts you in total control of your business, without being tied to your business.

Remotely access your top reports.

Add, edit or remove menu items, screen categories, modifiers and modifier categories remotely.

Remotely track labor and manage employees.

Online ordering integration.

View statements, chargebacks and deposits.

Utilize the internal messaging system.

View "how-to" demonstration videos and quick reference guides right on the POS system.

Get immediate assistance through the live chat feature.

Innovative Add-ons

Integrated Cutting-edge Technology!

Harbortouch Tableside

Harbortouch Tableside enables restaurant servers to input customer orders directly from the table via an Apple® iPad®†. A dedicated iPad app mirrors the interface of the actual POS software. The orders are relayed directly to the kitchen or bar for a dramatic increase in efficiency.

Harbortouch Reservations

Harbortouch Reservations enables restaurants to manage all incoming reservations directly through the Harbortouch POS system. This feature allows you to accept reservations online or manually enter reservations at the point of sale and track them all through your POS system. Similar online reservation systems cost hundreds of dollars a month, but Harbortouch Reservations is now free of charge with a Harbortouch Harbortouch Hospitality POS system!

Harbortouch Online Ordering (HOLO)

Harbortouch Online Ordering allows you to accept orders online through a customized and branded menu. When customers order online, a ticket will automatically be generated within the POS system. This solution is fully integrated with your existing POS menu to provide a seamless experience.

A Company You Can Trust

An Award Winning Industry Leader!

Harbortouch is a leading national supplier of point of sale (POS) systems, serving tens of thousands of businesses across the nation. Consistently recognized as a leader in innovation, Harbortouch is a six-time Inc 500/5000 honoree and has garnered numerous awards and accolades for its outstanding customer service and innovative products.

Hear What Our Merchants are Saying

David M. from
Rivals Sports Bar & Nightclub

"Overall, my experience with Harbortouch has been fantastic. The hardware is top quality and very durable which is important in such a fast-paced restaurant environment. The software is extremely easy to use and has saved me a lot of time during opening since the waitstaff required very minimal training to be able to efficiently use the system. The support team has been great. I can call them 24/7 and they are available to help me with any questions I have. I am very happy with my decision to choose Harbortouch for my business."
